

# AKSAD GROUP PETROCHEM

## EX5

### HDPE made via Hostalen Process

For blown films with paper like quality, suitable for counter bags, carried bags and w/aping films, excellent processing.

### Material properties

This data are typical values and are not to be construed as product specifications

### Features

- High molar mass film grade, good stiffness and tenacity

### Applications

- blown
- Film

### Additives

- Antioxidant/Process stabilizer
- Lubricant (processing aid)/acid scavenger
